

## 18AWG CABLES PARA APLICACIONES DE AUDIO

### SPECIFICATION

**Part No.** PROAUDIO18W

#### Physical Characteristics

Size 18 AWG  
 Formation 2 WIRE\*18AWG  
 Conductor Copper Clad Aluminum  
 Number/Wire Diameter 46\*0.15mm

#### Sheath

Diameter 2.5\*5.0mm  
 Average Thickness 0.75mm  
 Material \*FRNC\* PVC  
 Flammability fire resistance

#### Outer Jacket

Jacket Color **White**

#### Mechanical Characteristics

Conductor Resistance,Max Ohm/100m (20°C) 3.21  
 Tensile Strength 188N/mm<sup>2</sup>  
 Conductor Elongation 10%  
 Working Voltage ≤80V

#### Packing

500 FT/Paper Spool  
 6 Paper Spools/Carton

#### Industry Standard

ISO 9001:2000

#### Applications

Multi-conductor-audio/sound, control & instrumentation cables. Use for audio, microphones, instruments of music, applications voices, audio transmission, flexible cable for easy connection to audio applications.

Ideal for use with systems Voices

\*FRNC\*=Flame Retardant Non-Corrosive
