

Model No: TXPTO700

Chemistry: Li-Ion

Voltage/Capacity: 7.4V / 1800mAh

Safety Components: Over-temperature protection & short circuit protection

Electrical Connection: With FPCB

Military grade performance

Designed for high humidity and salinity conditions

Made with high quality shock resistant polycarbonate

Mechanical:		Enviromental:	
Original Part No.	BL2102	Charging Temperature	0°C to 50°C
Compatible Radio Models	TC-700	Discharging Temperature	-20°C to 60°C
Plastic Material	PC+ABS+Fireproofing Material	Storage Temperature	25°C +/- 5°C
Assembly Construction	Housings bonded by ultrasonic	Storage Position	Non-critical
Charger & Radio Contacts	Gold-plate		

Package:	
Inner Package	PVC bag and kraft paper box
Our Package	30 x 29.5 x 15 (L x W x H) Carton, 60PCS each Carton
